The Purpose of this Document

This document is a summary of the safety standards and programming procedures that Schafer Sports Summer Camps will be following for Summer 2021 as we work to align with proper COVID-19 safety measures. This document and our procedures are subject to change based on updated information and recommendations from local, state, and federal authorities. The only way that we can all remain safe is to self-check and provide honest answers to the daily screening questions. So, we encourage everyone to be mindful of your health status as well as that of your child prior to attending camp.

As we work to follow reopening guidelines and reduced occupancy, we are limiting building access to staff and campers.

Before You Arrive

- Prior to heading to summer camp, please take a moment at home to check for symptoms (*Per the CDC, symptoms which include cough, shortness of breath or difficulty breathing, fever, chills, muscle pain, sore throat, and new loss of taste or smell*). Details at <https://www.cdc.gov/coronavirus/2019-ncov/prevent-getting-sick/prevention.html>
- If anyone in your household is sick, please stay home and reschedule your camp day as we are taking liberal steps to accommodate make ups.
- Please take your child's temperature daily, before coming to camp. The temperature must be under 100.4° to enter camp.
- Come already dressed for camp to avoid changing clothes as we are limiting the number of campers in the restroom at any given time.
- Please make sure to include your child's name on face coverings, backpacks, water bottles, snack bags and all personal items they will bring.
- Please emphasize both the wearing of their masks and good hand hygiene, including sanitizing and washing their hands after bathroom usage and before eating.
- As we work to avoid sharing items during camp, we ask that each camper pack and bring a labeled gym bag with items that will strictly be for their personal use only during the camp day. Please review the following suggested items:
 - Filled labeled water bottle's, the fountains are available for use
 - Labeled snack in a reusable/disposable bag or lunch container
 - Space for any clothes that need to be stored
 - Plastic bag to place their shoes in order to keep their bag clean
 - Hair ties if needed
 - Book (s) to read if needed

Screening Procedures for all Campers and Staff

We are adhering to all CDC guidelines. <https://www.cdc.gov/coronavirus/2019-ncov/prevent-getting-sick/prevention.html> If the staff or camper does not meet the criteria as stated with the CDC, they will not be permitted into camp.

The following daily screening questions will be asked of our staff, parents, or care givers on their behalf as per CDC guidelines:

1. Have you been ill with a fever, chills, cough or body aches in the last 14 days.
2. Has anyone in your household had these symptoms in the last 14 days
3. Have you or anyone in your household traveled internationally in the last 14 days
4. Have you or anyone in your household traveled to a location in the US where an increase of incidences of COVID-19 has been reported in the last 14 days
5. Have you been told by a healthcare provider that you should self-quarantine due to potential COVID-19 exposure or you are suspected of having COVID-19

Morning Drop Off Procedures

- For early drop off, please park and walk your child inside the building
- As you pull into the parking lot, the spaces on the left, from the Handicapped spots to the exit, will be designated for camp drop off and pickup.
- From 8:45am until 9:10am, and from 12:15pm until 12:40pm, a Schafer staff member will greet you and your child at your car and ask the health screening questions.
- Fully vaccinated staff and campers will not need to wear masks, though they will be required to provide documented proof. Non vaccinated staff will be wearing a face covering at all times.
- Please have your camper wear a face covering during the drop off procedure even if vaccinated.
- Our staff will guide them into the building where they will sanitize their hands, get a wrist band, and then be directed to their designated area.

Pick Up Procedures

- From 12:00pm until 12:15am, and from 3:30pm until 3:45pm, a Schafer staff member will meet you at your car and then call in for your child to come out.
- If you are picking up at a different time, please park and come in to the facility.

Physical Distancing Procedures

- Each child will be assigned a “social distanced” seat in the waiting area, that will be their home base for the day.
- They will keep their belongings under that seat.
- Children will remain in small groups, no more than 8-10 campers per staff member. We will keep the same children and camp leaders together throughout the day.
- Each group will have their own snack time and area to ensure the social distancing.
- Camp staff will use non-contact forms of enthusiasm; for example, air fives.
- We designed a clear gym layout with physical distancing markers to provide social distancing for our camp leaders and campers.

Health and Illness Procedures

- Fully vaccinated staff and campers will not need to wear masks, though they will be required to provide documented proof. Non vaccinated staff and campers will be wearing masks at all times.
- We will provide frequent opportunities during camp, for hand-washing and/or hand sanitizing for staff and children.
- If anyone becomes sick or has a temperature of 100.4° or higher while at camp, they will be moved into the dance studio which will serve as our medical/isolation location. We will call a parent or care giver and arrange for pick-up of the camper.
- We will monitor staff and campers throughout the day for any signs of possible illness as well.
- If we are told about a case of possible COVID-19 or identify a case, we are mandated to notify DOH-Youth Camp Project as well as our Local Health Authority. The Local Health Authority will also contact us should they receive notification of a positive test by the testing center.
- We will encourage proper hygiene and ask and remind campers to use tissues to wipe their nose and to cough inside their elbows.
- We will post signs in restrooms and near sinks to convey proper handwashing techniques.
- Details at <https://www.cdc.gov/coronavirus/2019-ncov/prevent-getting-sick/how-covid-spreads.html>

SSC Staff Safety

- Fully vaccinated staff will not need to wear masks, though they will be required to provide documented proof. Non vaccinated staff will be wearing masks at all times.
- All SSC staff will be required to self-check for COVID-19 symptoms before arrival to work and complete a daily health screening form. Anyone with a fever over 100.4 °F will be asked to stay home.
- All staff will wash or sanitize their hands upon arrival to work, and between classes.
- SSC staff will limit direct contact with students.

Facility

- Facility capacity will be monitored to maintain space for distancing students and parents.
- SSC has increased daily cleaning and disinfecting frequency and standards.
- High touch surfaces in lobbies and restrooms will be cleaned multiple times per day.
- Hand Sanitizer will be available at various locations in the facility for you.

Help Us Keep You Safe

- Understand what the CDC says about how the virus causing COVID-19 spreads.
